

Part # **WHALEFIN4 x 56mm LIQUID**

Feature:

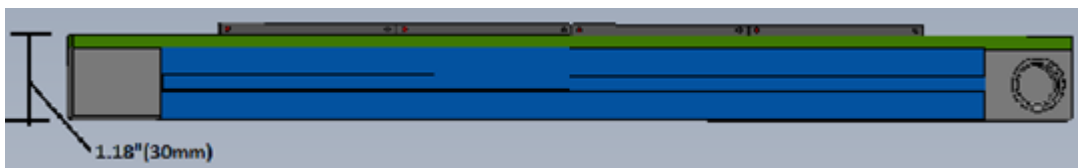

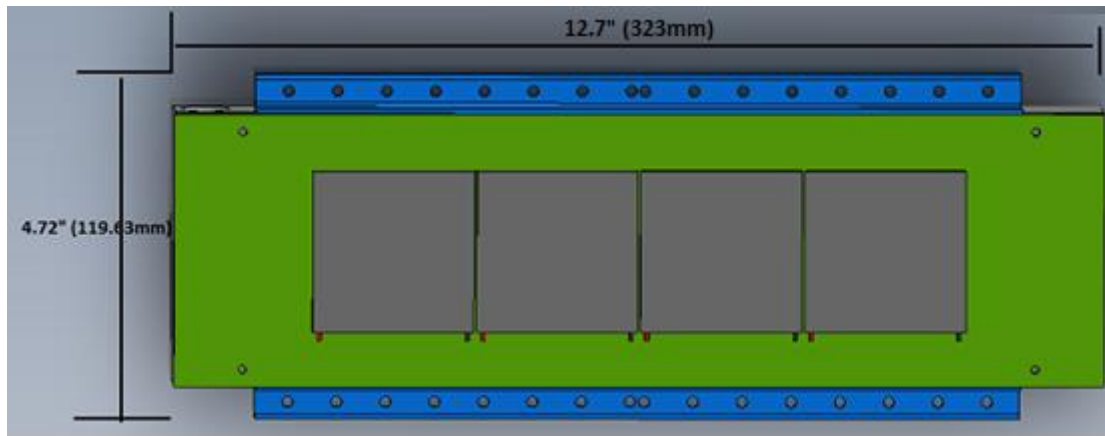

- All Aluminum construction
- 1/2" ID 5/8" OD 90° Brass barbed fittings for both in port & out port.
- Mate to a 1/2" ID silicon tube for best results with 3/16" wall thickness.
- Low flow low pressure drop design.
- Flow rates 2.5 liters per minute optimal little back pressure, (ref. page 2)
- All flow is in parallel **NO** serial flow.
- 4 x 56mm only modules must be placed on the deck as part of design.

Populated with 4 pieces of 56 x 56mm modules:

TEG1-12611-6.0

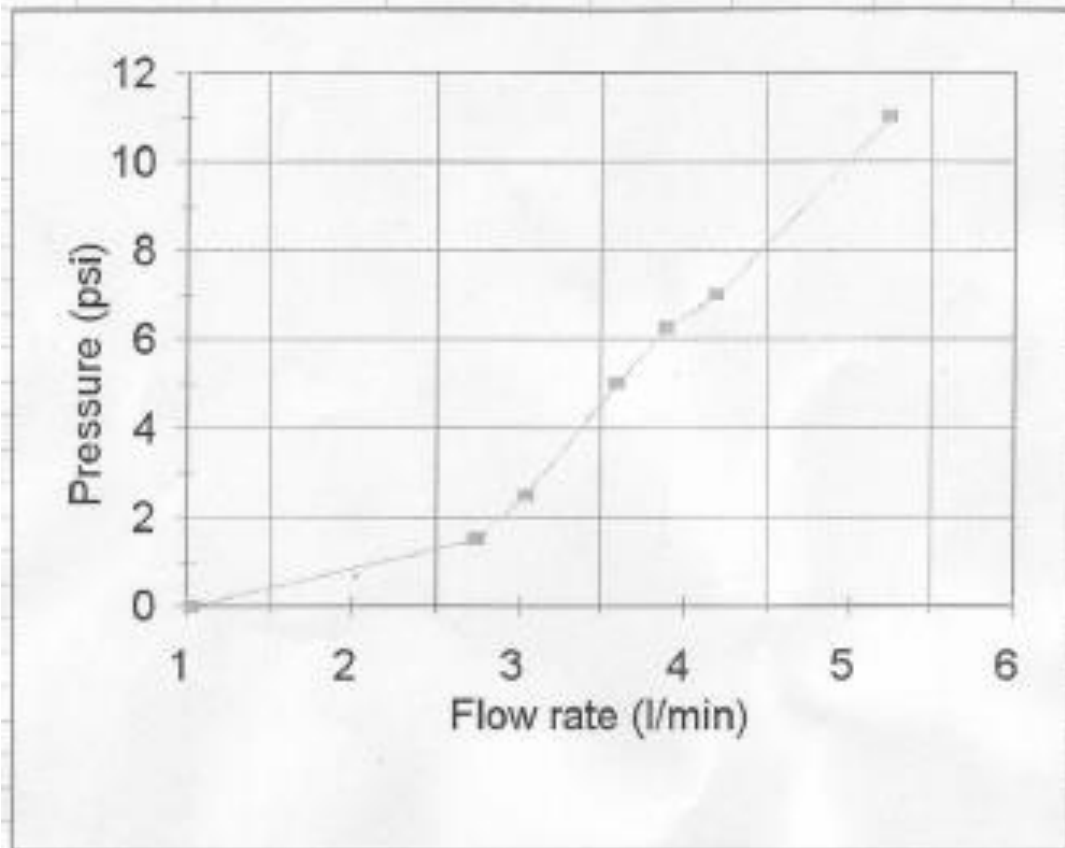

TEG1-12611-8.0

TEG1-PB-12611-6.0

No#	flow (l/min)	Pressure(psi)		
1	1.03	0	0	
2	2.75	1.5	0	
3	3.05	2.5	0	
4	3.6	5	3.3	
5	3.9	6.25	5	
6	4.2	7	8	
7	5.25	11	11	

* Above flow rate as compared to water pressure is representative of all Whalefin™ designs.
